Jan Antoš

Nationality: Czech
Email: jan.antos@icloud.com
Github: github.com/antosjan56
Tutoring (cz): https://www.doucuji.eu

Education

Bc., Mathematical Modelling — Expected June 2027
Charles University, Faculty of Mathematics and Physics — Prague, Czech Republic

- Relevant coursework: Mathematical Analysis, Linear Algebra, Numerical Methods, Probability, Machine Learning

Experience

Mathematics and Physics Tutor — 2022–present
Prague, Czech Republic

- Teach mathematics and physics in one-on-one sessions to middle and high school students.
- Have prepared multiple students for high school entrance exams and for the *maturita* in mathematics (high school final exam); all passed.

Projects

Nine Men's Morris (Mlýn) — 2026
Course project, Programming 2, Charles University

- Implemented the board game Nine Men's Morris in Python as a final project for the course.
- Added a computer opponent based on the minimax algorithm.

Skills

- Programming: Python, Wolfram Mathematica
- Tools: LaTeX, Git
- Languages: Czech (native), English (advanced)

Awards and Activities

- Robotiáda 2024, international round: 4th place (team of five)
- Mathematical Olympiad, regional round: category C (2021), B (2022), A (2023, 2024)
- Physics Olympiad, regional round: category D (2021), C (2022)
- English Conversation Competition, regional round: 3rd place (2023)
